Serial No

1 Letter no 03 WBS/33 dt 18-3-33 from the DC, Vizag requesting for sanction an estimate for Rs 32000 for a scheme of water supply to Bheemunipatam Town

---

2. M & B

1 The files 200-30 (4, 6, 17, 36) enclosed and 264-32 (1 & 2) are herewith for reference

2 The present estimate includes the Tank, Head & Sluice charges of Rs 4700 and this amount the Consl wants to be waived out of the balance of Rs 27,300 the Consl proposes that the Govt may be pleased to contribute a sum of Rs 7300 out of State funds and lend a sum of Rs 20000 The DC observes that with the help of the donation of Rs 15000 promised by the Manager, the Municipality will not find it difficult to liquidate the loan within a period of 15 years

The Govt may kindly pass orders The Govt Pleader may be consulted in the matter, if necessary

MM 22/3 AW

3 The Scheme prepared in 1932 for Rs 31180 was agreed to by the Govt in their Office Letter no 43170 Fy & I 32 dt 3-11-32 the finances of the Municipality have improved tremendously for the worse and the proposal now is that the Pipes available at the Bheemunipatam Tunnel Works which were proposed to be utilised for the Scheme are out

Cannot not be given free

4 The Scheme now prepared is for Rs 32000 inclusive of the cost of tools & plant charges amounting to Rs 4700

5 The proposals made are—

(i) That the cost of plant & tools charges should be waived by Govt

(ii) That Govt should contribute a sum of Rs 7300 for the work

(iii) That the balance of Rs 20,000 be given as a loan to be repaid in 15 annual instalments

6 It is stated that the loan instalments will be paid by utilising the donation of Rs 1000 promised annually by Mr M Ramaiah of Mysore by making an additional provision in the budget of about Rs 926-12-8 from the Muzrai funds The recurring charges are proposed to be met from the levy of pilgrim tax & water tax

7 The loan is apparently asked for from State funds According to the previous proposals a loan of Rs 7500 was to be taken from the funds of Some temples at the place at 6½% interest Perhaps the loan from Govt is now asked for as the amount required is large viz Rs 20,000 ~~Under the~~ The Fee may be cancelled regarding the grant of the loan the rate of interest to be charged &c

8 Before consulting the Fee Dept the Dir of Health may be consulted re the Govt contribution of Rs 7300 and ~~contribution~~ the recurring of the cost of tools & plant charges proposed

(10) Forwarded with compliments to the Director of Health for favour of opinion

By order
Asubba Rao
for Secretary to Government
28 9 1933

(11) Retransmitted with compliments to the General Secretary to Government

(12) The estimate of the Unit Water Supply Scheme is Rs 32,000/- The proposals now are that Government may give a cash contribution of Rs 7,300/- and they may waive the supervision and tools and plant charges amounting to Rs 4,700/- This would mean that Government's quota will amount, in all, to Rs 12,000/- that is, about 38½ per cent and excluding the supervision and tools and plant charges to 22½ per cent

(13) It will be possible to provide Rs 6,000/- this year from the Budget grant under 30 Grants for Public Improvements, Improvements of water supply in towns, and the balance of Rs 1,300/- from the same grant in 1934-35

(14) As regards waiving of supervision and tools and plant charges amounting to Rs 4,700/-, it is recommended that this may be done But in view of the point that the Financial Secretary has raised, that such waiving without being booked, leads to difficulty in maintaining accounts, it is suggested that this may also be treated as a grant but not taken from the Budget allotment under 30 Grants for Public Improvements but as an additional grant

General and Revenue Secretariat

15) The donor Mr Ramayya who has agreed to contribute Rs (10,000/-) makes it subject to the condition that house connections are given This, it may be pointed out, is not possible in the present Unit Scheme The Scheme also does not provide for Public Water Supply to Ganjam

16) The provision of public water supply will undoubtedly come as a great convenience to this town One hopes that the Municipal Council will soon expand the present Unit Scheme so as to bring wholesome water within easy reach of every house

17) The proposals that Government give a cash contribution of Rs 7,300/- and waive supervision and tools and plant charges of Rs 4,700/- may kindly be approved

Director of Health

18) It is not desirable to waive the recovery of Establishment and Tools and Plant charges as it practically results in increase of expenditure as a charge against Government under 24 Civil Works' Any concessions to be shown to Local Bodies should be in the form of a Government grant and also adjusted in the Accounts accordingly Including the sum of Rs 4,700/- representing the Establishment and Tools and Plant charges the Government grant will aggregate to Rs 12,000/- and

GENERAL SECT
5 OCT 33
No

13/10/33

Je 954/6 10-33

Serial No

JC954

and this amount has to be met out of the grant under 30 Grants for Public Improvements" The proposal as to treat it an additional grant in not in order Whether it will be possible to meet the sum of Rs 12 000/- from the ~~normal~~ total budget grant under "30 Grants" has therefore to be ascertained

20) The loans to Local Bodies already sanctioned and under sanction amount to more than the provision of Rs 10 96 lakhs in the current year's budget and there are therefore no funds available to meet the loan of Rs 20,000/- now asked for The rate of interest depends upon the money conditions at the time the loan is actually to be paid Considering the past and present borrowings the rate of interest on future loans has I think to be fixed at least at 5½ per cent In Madras, interest at 5¾ per cent per annum is required to be paid on current loans to Local Bodies

21) It will be seen from the note of the Director of Health that the Donor Mr Ramayya who has agreed to contribute Rs 1,000/- annually for 15 years makes it subject to the condition that house connections are given and that this is not possible in the present Unit scheme If this is the case it is problematical whether the expected annual contribution of Rs 1 000/- referred to above will actually be received and whether the Municipality will be able to meet the loan instalments and interest as also the annual maintenance charges from the normal resources at its disposal Special information on this point also may be called for before the scheme is taken actively under consideration

GENERAL SECRETARY 21 SEP 1933 No. S-9

SIR

Water supply scheme to Seringapatam Town

In forwarding herewith the correspondence ending with the Seringapatam Town Municipal President's No 103/33-34 dated 11th September 1933, regarding the Scheme of water supply to Seringapatam Town, I have the honour to state as follows -

2 The Municipal Council in their Meeting held on 31st August 1933 have resolved to make a respectful submission to Government to sanction the Water Supply Scheme as revised now, that the donation of Rs 15,000/- offered by Mr H Ramaiya to be paid in fifteen annual instalments of Rs 1000/- each year be accepted, that the tools and plants charges amounting to Rs 4700/- may be waived, that a sum of Rs 7,300/- may be contributed from the State Funds and that ~~for~~ a loan of Rs 20,000/- may be sanctioned to be repaid in fifteen instalments with interest thereon utilising for the purpose the donation of Rs 1000/- offered by Mr Ramaiya and providing a sum of Rs 926-12-8 in the Budget every year The Council further pray that this representation may be favourably considered and immediate sanction accorded thereto They propose to meet the recurring expenditure of the water supply by the levy of water tax and pilgrim tax

3 An estimate for Rs 32,000/- for the Water Supply Scheme prepared by the Executive Engineer of the Sanitary Division, Bangalore,

is enclosed in the file, according to which the tools and plants and establishment charges are estimated to amount to Rs 4,700/- and this amount the Council wants to be waived Out of the balance of Rs 27,300/- the Council prays that the Government may be pleased to contribute a sum of Rs 7,300/- out of the State Funds and lend a sum of Rs 20,000/-

4 Now that the Government have been pleased to sanction the proposal of the Municipal Council to levy pilgrim tax, the finances of the Municipality will considerably be increased With the help of the donation of Rs 1,000/- each year by Mr Ramaiya, the Municipality will not find it difficult to liquidate the loan within a period of fifteen years

5 The Town is of unique historical importance and considering the present health of the town and consequent decline in the population of the Town, I consider it desirable that the inhabitants, visitors and pilgrims should be provided with good drinking water The provision of pipe water will go a great way to improve the health of the town, and will also arrest the decline in population

6 In the above circumstances, I request that Government may be pleased to kindly accord early sanction to the Seringapatam Water Supply Scheme as now proposed by the Municipal Council

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Mysore District

Sir,

I am directed to refer to your letter no D3 468/33 dated 18-9-33 forwarding for sanction an estimate for Rs 32 000 for a scheme of water supply to Seringapatam, and to say that the donor Mr. Ramayya, who has agreed to contribute Rs 1000 annually for 15 years makes his contribution subject to the condition that house connections are given free of charge to the Directors of Health States, that is not feasible in the present water scheme and therefore it is problematical whether the expected annual contribution of Rs 1000 referred to above will actually be received in

General and Revenue Secretariat

Extract from the Financial Secretary's note dated the 11th November 1933 in the file relating to the Hole-Narasipur Water Supply

x x x

It is doubtful whether the Bangalore City Municipality will be drawing the entire loan of Rs 3 lakhs sanctioned to it this year and if they do not draw the entire loan this year it may be possible to meet the present loan out of the current year's grant
